About me

I am a WordPress Developer and Support Agent with experience in building, maintaining, and improving business websites using WordPress and Elementor. Through my work at SynrgiseLearn and freelance projects completed under RASOL DIGITALS, I have supported clients, implemented website updates, maintained live websites, and delivered solutions that meet business and user needs.

My experience in both technical support and WordPress development has strengthened my problem-solving, communication, and attention to detail, while reinforcing the importance of delivering reliable, user-focused solutions.

Professional Experience

A summary of my agency and freelance experience in WordPress development and technical support.

SynrgiseLearn | Support Agent & WordPress Developer

- Provided technical support to clients.
- Maintained and updated WordPress websites.
- Implemented client-requested website changes.
- Built and edited pages using Elementor.
- Supported Learning Management System (LMS) platforms.
- Worked with live business websites to ensure accuracy and functionality.

RASOL DIGITALS | Freelance WordPress Developer

- Designed and developed client websites using WordPress and Elementor.
- Assisted in collaborative website projects.
- Implemented UI refinements and content updates.
- Built responsive layouts based on client requirements.
- Delivered websites that aligned with each client's brand and goals.

Core Focus

- WordPress Development
 - Website Maintenance
 - Technical Support
-

Website Development & Client Implementation

Overview

Developed a new webpage from scratch using WordPress and Elementor based on a client-provided PDF specification. The project involved translating the approved design into a responsive webpage while maintaining consistency with the existing website. In addition, I updated existing project pages by adding new projects and uploading gallery content as requested by the client.

Website: <https://3dot.co.za>

My Contribution

- Developed a new webpage from scratch using WordPress and Elementor.
- Converted the client's PDF specification into a fully functional webpage.
- Added and configured navigation buttons for seamless user navigation.
- Added new projects to the existing Projects section.
- Uploaded and organised gallery content for existing project pages.
- Maintained design consistency with the existing website.
- Tested the page and updates before deployment.

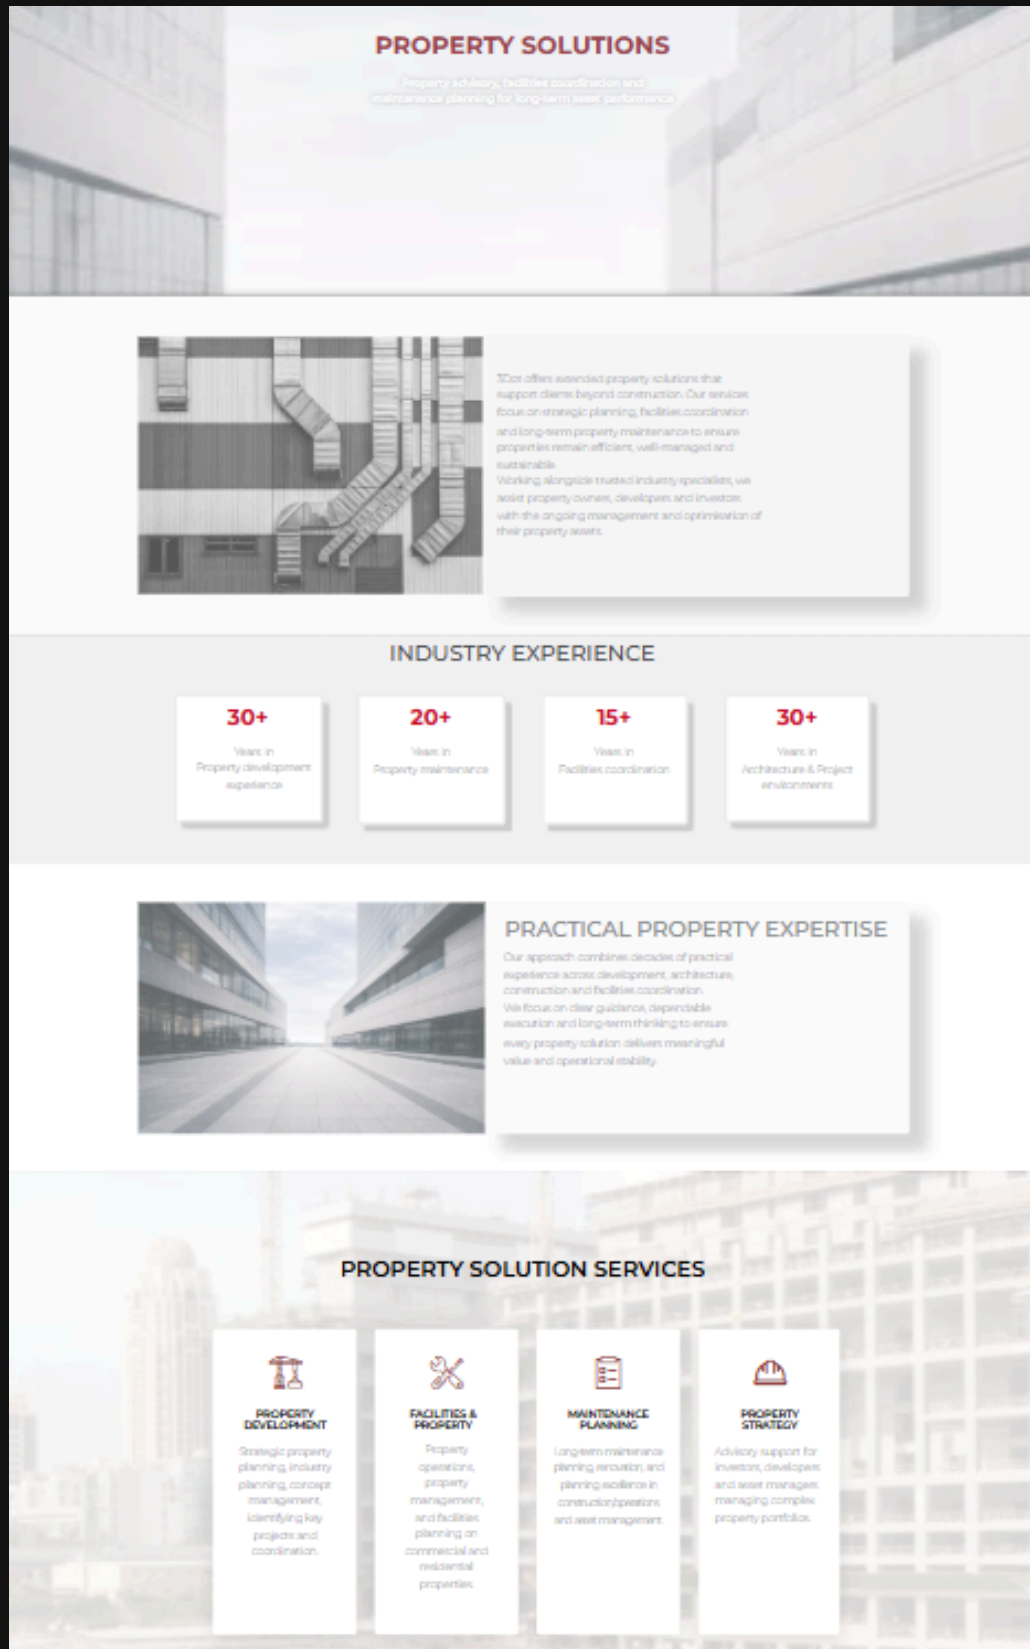

Tools Used

- WordPress
- Elementor

What I Learned

This project strengthened my ability to convert client requirements into a production-ready webpage while maintaining design consistency, responsiveness, and usability.

Website Maintenance & Content Updates

Overview

Maintained and updated the Jetline website by ensuring business information remained accurate and up to date. My work included updating Google Maps locations for multiple branches, maintaining branch information, and implementing changes to the quote request information to support the client's operational requirements.

Website: <https://www.jetline.co.za/>

My Contribution

- Updated Google Maps locations for multiple branches.
- Maintained and updated branch information.
- Updated quote request information.
- Ensured website content remained accurate and consistent.
- Tested changes before publishing to the live website.

Tools Used

- WordPress
- Google Maps

What I Learned

Working on a multi-branch business website reinforced the importance of accuracy, consistency, and attention to detail when maintaining live websites that customers rely on.

Project Note: The Jetline website has since been redesigned and my original contributions are no longer visible on the current live website.

Wizardz

Agency Project | SynrgiseLearn

Website Maintenance & Content Updates

Overview

Maintained and enhanced the Wizardz website by implementing client-requested updates and improving website functionality using WordPress. My work focused on delivering requested changes while ensuring the website remained consistent, functional, and user-friendly.

Website: <https://wizardz.co.za/>

My Contribution

- Added a Shop button linking to the online store.
- Implemented client-requested website changes.
- Maintained website content and functionality.
- Tested updates before publishing.

Tools Used

- WordPress
- Elementor

What I Learned

This project strengthened my ability to implement client requirements on a live website while maintaining consistency, functionality, and a positive user experience.

Project Note: The Wizardz website has since been redesigned and my original contributions are no longer visible on the current live website.

RASOL DIGITALS

Freelance Projects | RASOL DIGITALS

WordPress Development & Website Updates

Overview

Developed and maintained WordPress websites under RASOL DIGITALS, delivering responsive, user-friendly solutions using WordPress and Elementor. My work included building website pages, implementing content, refining layouts, and ensuring each website aligned with the client's requirements and brand identity.

Machaka Sekwala Attorneys

Website: <https://machakasekwalaattorneys.com>

My Role

WordPress Developer

My Contributions

- Updated the existing website using WordPress and Elementor.
- Implemented content and layout updates.
- Improved the website's structure and presentation.
- Ensured responsiveness and consistency across pages.

Tools Used

-  WordPress
-  Elementor

What I Learned

These freelance projects strengthened my ability to independently build and improve WordPress websites while collaborating with clients and delivering solutions that aligned with their business goals.

Why work with me

Problem Solver

I enjoy solving website challenges and implementing practical solutions that improve functionality and user experience.

Real-World Experience

I have contributed to live client websites through both agency and freelance work, giving me practical experience working with real business requirements.

Team Player

I work well in collaborative environments and value clear communication when delivering projects.

Continuous Learning

I am committed to improving my WordPress development skills and staying up to date with industry best practices.

Thank You

Thank you for taking the time to review my portfolio.

I appreciate your time and consideration. I look forward to the opportunity to contribute my WordPress development and technical support experience to your team.
